In the Box

- iPhone 14
- USB-C to Lightning Cable
- Documentation

As part of our efforts to reach [carbon neutrality by 2030](#), iPhone 14 and iPhone 14 Plus do not include a power adapter or EarPods. Included in the box is a USB-C to Lightning Cable that supports fast charging and is compatible with USB-C power adapters and computer ports.

We encourage you to re-use your current USB-A to Lightning cables, power adapters, and headphones, which are compatible with these iPhone models. But if you need any new Apple power adapters or

headphones, they are available for purchase.

iPhone and the Environment

iPhone 14 and iPhone 14 Plus are designed with the following features to reduce their environmental impact:¹⁹

[See the iPhone 14 and iPhone 14 Plus Product Environmental Report](#)

Made with better materials

- 100% recycled gold in the wire of all cameras and the plating of multiple printed circuit boards
- 100% recycled tungsten in the Taptic Engine, representing 100% of the tungsten in iPhone 14 Plus²⁰ and 99% of the tungsten in iPhone 14
- 100% recycled rare earth elements in all magnets, representing 100% of the rare earth elements in iPhone 14²¹ and 99% of the rare earth elements in iPhone 14 Plus
- 100% recycled tin in the solder of multiple printed circuit boards
- 35% or more recycled plastic in multiple components

Energy efficient

- Meets U.S. Department of Energy requirements for battery charger systems²²

Smarter chemistry²³

- Arsenic-free glass
- Mercury-, BFR-, PVC-, and beryllium-free

Green manufacturing

- Apple's Zero Waste Program helps suppliers eliminate waste sent to landfill
- All final assembly supplier sites are transitioning to 100% renewable energy for Apple production

Responsible packaging

- 100% of virgin wood fiber comes from responsibly managed forests
- 90% or more fiber-based packaging

Apple and the Environment

We're committed to making our products without taking from the earth, and to become carbon neutral across our entire business, including products, by 2030.

[See Apple's commitment](#)

* To identify your iPhone model number, see support.apple.com/kb/HT3939. For details on 5G and LTE support, contact your carrier and see apple.com/iphone/cellular. Cellular technology support is based on iPhone model number and configuration for GSM networks.

1. Available space is less and varies due to many factors. A standard configuration uses approximately 12GB to 17GB of space, including iOS 17 with its latest features and Apple apps that can be deleted. Apple apps that can be deleted use about 4.5GB of space, and you can download them back from the App Store. Storage capacity subject to change based on software version, settings, and iPhone model.
2. Size and weight vary by configuration and manufacturing process.

3. iPhone 14 and iPhone 14 Plus are splash, water, and dust resistant and were tested under controlled laboratory conditions with a rating of IP68 under IEC standard 60529 (maximum depth of 6 meters up to 30 minutes). Splash, water, and dust resistance are not permanent conditions. Resistance might decrease as a result of normal wear. Do not attempt to charge a wet iPhone; refer to the user guide for cleaning and drying instructions. Liquid damage not covered under warranty.
4. Apple Cash services are provided by Green Dot Bank, Member FDIC. Learn more about the [Terms and Conditions](#). Only available in the U.S. on eligible devices. To send and receive money with an Apple Cash account, you must be 18 and a U.S. resident. If you're under 18, your family organizer can set up Apple Cash for you as part of their Apple Cash Family account, but you may not be able to access features that require a supported payment card. Security checks may require more time to make funds available. Apple Cash Family accounts can send up to \$2000 per transaction and receive up to \$2000 within a seven-day period. To access and use all Apple Cash features, you must have an eligible device with Wallet that supports and has the latest version of iOS.
5. Available only in select cities and transit systems. Requires eligible device and OS version. [See here for details](#).
6. Service is included for free for two years with the activation of any iPhone 14 model. Connection and response times vary based on location, site conditions, and other factors. See support.apple.com/kb/HT213885 for more information.
7. iPhone 14 and iPhone 14 Pro can detect a severe car crash and call for help. Requires a cellular connection or Wi-Fi calling.
8. Data plan required. 5G, Gigabit LTE, VoLTE, and Wi-Fi calling are available in select markets and through select carriers. Speeds are based on theoretical throughput and vary based on site conditions and carrier. For details on 5G and LTE support, contact your carrier and see apple.com/iphone/cellular.
9. Ultra Wideband availability varies by region.
10. FaceTime calling requires a FaceTime-enabled device for the caller and recipient and a Wi-Fi connection. Availability over a cellular network depends on carrier policies; data charges may apply.
11. Standard dynamic range video content only.
12. Siri may not be available in all languages or in all areas, and features may vary by area. Internet access required. Cellular data charges may apply.
13. All battery claims depend on network configuration and many other factors; actual results will vary. Battery has limited recharge cycles and may eventually need to be replaced. Battery life and charge cycles vary by use and settings. See apple.com/batteries and apple.com/iphone/battery.html for more information.
14. Testing conducted by Apple in August 2022 using preproduction iPhone 14 and iPhone 14 Plus units and software and accessory Apple USB-C Power Adapter (20W Model A2305). Fast-charge testing conducted with drained iPhone units. Charge time varies with settings and environmental factors; actual results will vary.
15. Wireless chargers sold separately.
16. iPhone 14 models are activated with an eSIM and do not support a physical SIM. Use of an eSIM requires a carrier that supports eSIM and a wireless service plan (which may include restrictions on switching service providers and roaming, even after contract expiration). See your carrier for details. To learn more, visit apple.com/esim.
17. Wireless broadband recommended; fees may apply.
18. In China mainland, you can use Apple Pay on the web in Safari only on compatible iPhone and iPad models using iOS 11.2 or later.
19. Data accurate as of product launch.
20. Excludes trace amount of tungsten found outside of the Taptic Engine and accounting for less than 0.1 percent of the total found in the device.
21. Excludes trace amount of rare earth elements found outside of the magnets and accounting for less than 0.2 percent of the total found in the device.
22. Efficiency performance is based on the U.S. Department of Energy [Federal Energy Conservation Standards for Battery Chargers](#).
23. Apple's Regulated Substances Specification describes Apple's restrictions on the use of certain chemical substances in materials in Apple products, accessories, manufacturing processes, and packaging used for shipping products to Apple's end-customers. Restrictions are derived from international laws or directives, regulatory agencies, eco-label requirements, environmental standards, and Apple policies. Every Apple product is free of PVC and phthalates except for AC power cords in India, Thailand (for two-prong AC power cords), and South Korea, where we continue to seek government approval for our PVC and phthalates replacement. Apple products comply with the European Union Directive 2011/65/EU and its amendments, including exemptions for the use of lead such as high-temperature solder. Apple is working to phase out the use of these exempted substances for new products where technically possible.
